## Credits

### Lead Editors

Chris Mills and Matthew Moodie

### Assistant Production Director

Kari Brooks-Copony

### Technical Reviewer

Joshua Bloom

### Production Editor

Ellie Fountain

### Editorial Board

Steve Anglin, Dan Appleman,  
Ewan Buckingham, Gary Cornell,  
Tony Davis, Jason Gilmore,  
Jonathan Hassell, Chris Mills,  
Dominic Shakeshaft, Jim Sumser

### Compositor and Artist

Katy Freer

### Proofreader

April Eddy

### Project Manager

Beth Christmas

### Indexer

Broccoli Information Management

### Copy Edit Manager

Nicole LeClerc

### Cover Image Designer

Corné van Dooren

### Copy Editor

Liz Welch

### Interior and Cover Designer

Kurt Krames

### Manufacturing Director

Tom Debolski

# CONTENTS

---

<b>About the Author</b> . . . . .	<b>xii</b>
<b>About the Technical Reviewer</b> . . . . .	<b>xiii</b>
<b>About the Cover Image Designer</b> . . . . .	<b>xiv</b>
<b>Acknowledgments</b> . . . . .	<b>xv</b>
<b>Introduction</b> . . . . .	<b>xvi</b>
<b>Chapter 1: Priming the Pump</b> . . . . .	<b>1</b>
Static web pages . . . . .	2
Flash . . . . .	3
Dynamically generated HTML . . . . .	4
ASP.NET . . . . .	7
Flash/ASP.NET communication . . . . .	8
Methods of communicating between Flash and ASP.NET . . . . .	9
FlashVars . . . . .	9
LoadVars . . . . .	9
XML object . . . . .	9
Web services . . . . .	10
Flash Remoting . . . . .	10
Three-tier architecture . . . . .	10
C# . . . . .	14
Similarities between C# and ActionScript 2.0 . . . . .	15
The .NET Framework . . . . .	16
The common language runtime (CLR) . . . . .	17
The Framework Class Library (FCL) . . . . .	18
Setup . . . . .	18
Installing the .NET Framework . . . . .	18
Setting up Internet Information Services (IIS) . . . . .	20
Installing IIS . . . . .	21
Testing your IIS/ASP.NET installation . . . . .	22
Installing SQL 2005 Express Edition . . . . .	23

Visual Studio .NET 2005 . . . . .	25
Visual Studio .NET 2005 editions . . . . .	26
Installing Visual Studio .NET 2005 . . . . .	27
Exploring the Visual Studio interface . . . . .	28
#Develop: A free alternative to Visual Studio .NET . . . . .	29
Developing and executing on other platforms . . . . .	30
Summary . . . . .	31
 <b>Chapter 2: C# Primer . . . . .</b>	 <b>33</b>
Data types in C# . . . . .	34
Variables and memory . . . . .	35
The stack . . . . .	35
The heap . . . . .	36
Object-oriented programming in C# . . . . .	37
Structs in C# . . . . .	42
Strings in C# . . . . .	42
Comparing strings . . . . .	43
Manipulating strings . . . . .	44
StringBuilder . . . . .	46
Dates . . . . .	47
Conditional logic in C# . . . . .	49
Comparison operators . . . . .	49
Selection statements . . . . .	50
if-else statement . . . . .	50
switch statement . . . . .	51
Looping in C# . . . . .	52
while statement . . . . .	52
do-while statement . . . . .	53
for statement . . . . .	53
foreach statement . . . . .	54
Enumerations . . . . .	54
Arrays . . . . .	55
Collections . . . . .	57
ArrayList . . . . .	58
Summary . . . . .	59
 <b>Chapter 3: Basics of an ASP.NET Project . . . . .</b>	 <b>61</b>
Getting started in ASP.NET . . . . .	62
Server controls . . . . .	66
Code-behind files . . . . .	72
Page_Load . . . . .	76
Flash server control . . . . .	79
Adding a control to the Toolbox . . . . .	80
Using the epicFlashControl . . . . .	81
FlashVars . . . . .	84
Embedding FlashVars using the epicFlashControl . . . . .	84

A practical example . . . . .	87
Moving the navbar to ASP.NET . . . . .	91
Summary . . . . .	97

## **Chapter 4: Two-Way ASP.NET/Flash Communication . . . . . 99**

The request-response model . . . . .	100
HTTP request . . . . .	100
GET and POST variables . . . . .	101
HTTP response . . . . .	102
ASP.NET Request object . . . . .	102
ASP.NET Response object . . . . .	104
Using the Request and Response objects . . . . .	104
The try-catch-finally statement . . . . .	109
Sending mail using ASP.NET . . . . .	113
Configuring IIS to relay mail . . . . .	115
Using loadVars to call an ASP.NET page . . . . .	117
Example: Using loadVars in the navbar . . . . .	121
Example: Flash e-mail form . . . . .	124
ASP.NET loadVars handler page . . . . .	127
Back to the Flash form . . . . .	129
Tying it all together . . . . .	134
Summary . . . . .	135

## **Chapter 5: XML . . . . . 137**

The history of XML . . . . .	138
Elements of an XML document . . . . .	140
Text elements . . . . .	140
Start tag . . . . .	140
End tag . . . . .	142
Attributes . . . . .	143
Character data . . . . .	144
Comments . . . . .	144
Summary . . . . .	144

## **Chapter 6: Communicating Using XML . . . . . 147**

Flash animation using the Zigo tweening engine . . . . .	148
C# System.IO namespace . . . . .	151
System.IO.Directory . . . . .	151
Server.MapPath . . . . .	152
System.IO.File . . . . .	152
XML communication with the Flash XML object . . . . .	153
C# System.Xml namespace . . . . .	153
XmlTextReader . . . . .	154
Example of using the XmlTextReader . . . . .	155
XmlTextWriter . . . . .	164

Image gallery using XML . . . . .	168
Logical tier: ASP.NET server-side code . . . . .	168
Presentation tier: Flash interface . . . . .	177
Summary . . . . .	189
<b>Chapter 7: Web Services . . . . .</b>	<b>191</b>
Introducing web services . . . . .	192
Web service standards . . . . .	194
SOAP . . . . .	194
WSDL . . . . .	195
Creating an ASP.NET web service . . . . .	195
Creating the GetArea web method . . . . .	203
Using the Flash XML Web Service Connector . . . . .	206
Defining a web service in Flash . . . . .	206
Flash Web Service Connector component . . . . .	208
Connecting to the HelloWorld web service method . . . . .	208
GetArea web service example . . . . .	212
Creating the interface . . . . .	212
Initializing . . . . .	214
Receiving the result . . . . .	215
Completing the code . . . . .	216
Summary . . . . .	217
<b>Chapter 8: The Google Web Service API . . . . .</b>	<b>219</b>
Consuming third-party web services . . . . .	220
Signing up for the Google web service API . . . . .	221
Creating a web service proxy using ASP.NET . . . . .	222
Using an Application class in ActionScript . . . . .	226
Creating a Flash presentation tier for the Google web service . . . . .	227
Summary . . . . .	233
<b>Chapter 9: Database Connectivity . . . . .</b>	<b>235</b>
SQL . . . . .	236
Using SELECT statements . . . . .	236
Using UPDATE statements . . . . .	238
Using INSERT statements . . . . .	238
Using DELETE statements . . . . .	238
Introducing ADO.NET . . . . .	239
DataSet vs. DataReader . . . . .	239
Read-write access . . . . .	240
Data direction . . . . .	240
Database access . . . . .	240
Speed of access . . . . .	240
Connected vs. disconnected . . . . .	241
Working with ADO.NET data providers . . . . .	241
Data provider elements . . . . .	242
Connections . . . . .	242

Connecting to an Access database . . . . .	243
Working with commands . . . . .	248
Working with DataReaders . . . . .	249
DataAdapters and DataSets . . . . .	252
Using DataAdapters . . . . .	252
Using DataSets . . . . .	252
Filling a DataSet and passing it to Flash using a web service . . . . .	253
Summary . . . . .	255
<b>Chapter 10: Product Viewer Application . . . . .</b>	<b>257</b>
Setting up . . . . .	258
Creating the Microsoft Access data tier . . . . .	258
Creating the ASP.NET logical tier . . . . .	260
Creating the Flash presentation tier . . . . .	267
Summary . . . . .	279
<b>Chapter 11: Session State and Security . . . . .</b>	<b>281</b>
Session state . . . . .	282
ASP.NET server-side state management . . . . .	282
ASP.NET application state . . . . .	283
ASP.NET session state . . . . .	285
The ASP.NET global.asax file . . . . .	287
Adding a global.asax file to an ASP.NET project . . . . .	287
Using session state in ASP.NET web services . . . . .	289
Using application state in ASP.NET web services . . . . .	291
Adding a shopping cart to the storefront example . . . . .	293
Securing an ASP.NET web service using session state . . . . .	303
Summary . . . . .	307
<b>Chapter 12: Flash Remoting . . . . .</b>	<b>309</b>
Why Flash Remoting? . . . . .	310
The technology behind Remoting . . . . .	311
Examining the methods for using Flash Remoting . . . . .	313
Setting up Flash Remoting .NET . . . . .	314
Installing the Flash Remoting service . . . . .	314
Examining the files within the flashremoting directory . . . . .	315
Installing the Flash Remoting components . . . . .	316
ActionScript 2.0 Flash Remoting Connector . . . . .	316
NetConnection Debugger . . . . .	317
Enabling the Flash Remoting NetConnection Debugger . . . . .	317
Connecting to an ASP.NET page . . . . .	318
Creating the ASP.NET . . . . .	318
Creating the Flash . . . . .	320
Accessing ASP.NET session state via Remoting . . . . .	323
Setting up the ASP.NET page . . . . .	323
Creating the Flash interface . . . . .	324
Testing the code . . . . .	326

Connecting to a .NET DLL via Flash Remoting . . . . .	327
Creating a .NET DLL . . . . .	327
Calling DLLs from Flash . . . . .	330
Passing data from a .NET DLL to Flash . . . . .	331
Setting up the DLL . . . . .	332
Retrieving the DataSet in Flash . . . . .	333
Passing objects from .NET to Flash via Remoting . . . . .	334
Retrieving the objects in Flash . . . . .	336
Passing objects from Flash to .NET via Remoting . . . . .	337
Sending an object from Flash . . . . .	338
Connecting to a third-party web service using Remoting . . . . .	339
Potential problems with web services and Flash Remoting . . . . .	341
Summary . . . . .	343

## **Chapter 13: Creating a Video Weblog Using SQL Server and Flash Remoting . . . . . 345**

File uploading with Flash and ASP.NET . . . . .	346
The Flash.net.FileReference class . . . . .	346
Handling file uploads in ASP.NET . . . . .	348
Uploading a file from Flash to ASP.NET . . . . .	348
Creating a video weblog using .NET Flash Remoting and SQL Server . . . . .	355
SQL Server . . . . .	355
Creating a new database on SQL Server with Visual Studio .NET 2005 . . . . .	357
Stored procedures . . . . .	359
Creating a new stored procedure in Visual Studio . . . . .	360
Creating stored procedures for the video weblog . . . . .	362
Creating the ASP.NET logical tier . . . . .	363
Executing a stored procedure using a SqlCommand . . . . .	364
Creating the BlogEntries.cs file . . . . .	365
Creating the Flash admin presentation tier . . . . .	370
Creating the video weblog front-end . . . . .	384
Summary . . . . .	395

## **Index. . . . . 397**
